Summary

New graduate in Computer Engineering with specialized course work in Graphic Design, eager to start a career in UX/UI. Experienced in creating user flows, wireframes, prototypes, and high-fidelity UI designs from academic projects, and internships. Skilled in Figma, Adobe Photoshop, and Illustrator with a strong foundation in responsive design and design systems. Passionate about designing intuitive interfaces and collaborating with teams to deliver impactful user experiences.

Work Experience

DPLUS INTERTRADE COMPANY LIMITED

Frontend Developer (Internship)

Bangkok, Thailand

January 2025 - April 2025

- Participated in the development of two internal systems : Inventory Checking System and Billing Management System.
- Gathered user requirements and pain points through direct communication with users.
- Designed user-friendly interfaces (UX/UI) based on feedback and real-world workflows.
- Developed and maintained front-end components using React.js and Ant Design.
- Used GitLab for version control and collaborative development.

Project Experience

Hotel Booking | UX/UI Design

July 2025 - August 2025

- Designed a hotel booking application with intuitive navigation, clear filters, and a simple booking flow, incorporating modern features such as touchless check-in and sustainability options.
- Led UX/UI design from research, persona creation, user flow, design system, wireframe, to prototype.

Saimu (SDG) | UX/UI Design

August 2024 - November 2024

- Designed the Saimu application (version 2), a spiritual tourism app supporting sustainability (SDG) through temple and sacred site recommendations.
- Led UX/UI design, including design system, user flow, wireframe design and prototype creation.

Smiley Gems | Website Design

January 2024 - April 2024

- Designed a website for Smiley Gems, a jewelry company specializing in genuine gemstones and 9k-18k gold.
- Led UX/UI design, research planning, wireframe design and prototype creation.

Education

Sripatum University

B.Eng in Computer Engineering

Specialized Track in Graphic Design

2021 - 2025 | GPA : 3.90

Attawit Commercial Technology College

Diploma/High Vocational Certificate

in Information Technology

2019 - 2021 | GPA : 3.94

Hard Skills

UX Skills

- User Research
- Persona & User Flow
- Wireframing
- Prototyping
- Usability Testing

UI Skills

- Visual Design
- Design Systems
- Component Design
- Responsive Design
- Mockup

Design Tools

- Figma
- Canva
- Adobe Photoshop
- Adobe Illustrator

Technical Skills

- HTML, CSS, JavaScript
- React, Ant Design, Tailwind CSS

Soft Skills

- Teamwork
- Adaptability
- Problem Solving

- Creativity
- Attention to detail
- Communication

Additional Activities

Participated in a Cooperative Education Project Presentation Competition

May 2025

Participated in an Application Prototype Idea Contest for Sustainability

October 2024

Participated in SPU Startup Thailand League

June 2024
